

Long tradition to extend with yearbook dedication

By Carly Williams

It is that time of the year again! The yearbook comes out tomorrow, and one of the most anticipated things that everyone awaits is the annual yearbook dedication. Each year, the *Fultonian* is dedicated to a special member of the G. Ray Bodley High School staff in honor of their hard work here at GRB.

The tradition began in 1922 when Superintendent James R. Fairgrieve's name was first inscribed within the pages of the *Fultonian*. Since that time administrators, teachers, a student, buildings and even whole departments have been honored, including the man whose name adorns this high school, former Superintendent G. Ray Bodley himself.

The identity of each year's recipient is shrouded in great secrecy, and only a few people know who will receive this honor. This year's recipient will be announced later today at the high school, and tomorrow a profile of the winner will be featured in *RaiderNet Daily*.

Recently we took a blast into the past and brought back the yearbook dedications all the way back to 1920s.

Fultonian Yearbook Dedications:

2014- Mrs. Ray- Health teacher
2013- Mr. Gillard- Science Dep.t Chair
2012- Mr. Dodge- Health teacher
2011- Heather Oney-GRB student
2010- Mr. Garber- Physical Education teacher, Mrs. Fronk- School Nurse, Mr. Frawley- Technology teacher, Mr. Crisafulli-Latin, Mr. Dodge-Health, Mr. Hill- Technology, Ms. Lewis- English, Mr.Sherman- Art
2009- Ms. Kush- History teacher
2008- Mr.Burdick- Class Advisor, and Science teacher
2007- Mrs. Fallesen- Guidance Counselor, Mr. Chatterton- English Department Chair, Mrs. Federici- Family Consumer Science teacher
2006- Mr. Varacchi- English teacher
2005-Mrs.Jacalyn Vinciquerra Stewart- G.Ray Bodley Principal
2004-Mrs. Brunson- French teacher
2003-Mrs. Kelley- English teacher
2002-Mr. Tim Moore- History teacher
2001- Mr. Len Senecal- English teacher
2000- Mrs. Ruzekowicz- History teacher
1999- Dr. Bliven- English teacher
1998- Mr. Marty Gillard-Science teacher
1997- Mrs. Parsons- Economics teacher
1996- Mr. Francis J. Mckeown- Science teacher

1995- Mr. Fiordimalva- History Dept. Chair
1994- Mr. Varacchi- English teacher
1993- Mrs. Terene Stewart
1992- Deann Neild, Mrs. St. Phillips, and Jeanne Le Porte
1991- Mr. Burdekin and Mr. Philip Thompson
1990- Mrs. Carol Fox- Band teacher
1989- Mr. Joseph Sczupak- Math teacher
1988- Ms. Mary Bouchard- English teacher
1987- Mr. Joseph P. Fuss- Latin teacher
1986- Mr. William Quirk- Music teacher
1985- Mr. Thomas Frawley- Technology teacher
1984- Mr. Carl Preske- Science teacher
1983- Mr. Michael Egan
1982- Mr. Roger Neilson
1981- Mr. Godici- Physical Education teacher
1980- Mr. Campolieta- GRB Principal
1979-Mrs. Minnie Buske- English teacher
1978-Mr. William Quirk- Music teacher
1977- Mr. Girard Avery- Art teacher and Yearbook Advisor
1976- Mrs. Marjorie Carlson- English teacher
1975-Mr. Alphonse Nadeau- Language teacher
1974- Foreign Language Department
Mr. Alphonse Nadeau- French teacher, Mrs. Billy Jane Angle- German and English teacher, Mr. Jose Azcue- Music and Spanish

June GRB events

Today, June 4-Class of 2016 portraits in the auditorium (all day); High Honor Graduate Banquet-6 pm

Fri. June 5-Yearbook distribution, Class of 2016 portraits in the auditorium (all day); Senior Dinner Dance

Mon. June 8-Bodley Bash

Wed. June 10-Chorus concert

Thurs. June 11-Orchestra concert

Fri. June 12-Senior trip (last day of classes)

Mon. June 15-Local finals

June 16-24-Regents exams

Sat. June 27-Graduation-10 am

2015 Fultonian: the wait ends tomorrow

The yearbooks are in and there is a buzz around G. Ray Bodley High School about them.

The most popular question being asked is whether you can still buy a yearbook, and the answer to this question is yes. Yearbooks will be on sale outside of the auditorium on Friday, June 5 during most of the school day for \$60. Students who have preordered a yearbook can check the status of their yearbook on the list outside of the cafeteria. Students can see Mr. Senecal if there are any questions.

Because there are always mistakes that are made in the annual 180-page yearbook, the staff of the *Fultonian* would like to apologize in advance for any possible misspellings or errors that are in this year's edition. Keep in mind, the yearbook staff was limited this year with very little student participation, so errors like this could possibly occur. Underclassmen are urged to join the yearbook for next year to help the *Fultonian* produce the best yearbook possible. The yearbook staff is always looking for help, even with something as easy as uploading pictures at www.hjshare.com with the school code *fultonian*.

The *Fultonian* staff would also like to thank Advisor Mr. Senecal for everything he has done to make this year's edition possible, and for all the hard work that he has done as advisor.

Dangers of excessive speed should be heeded

By Breanna St.Onge

Adults and teens alike seem to occasionally forget that automobile accidents are not just fatal when drinking or drugs are involved. As teenagers, we read and watch report after report on how someone was killed or critically injured in an accident with a drunk driver or someone under the influence. But often we forget about the role of excessive speed as a major factor. It usually goes unnoticed until we look down at our speedometer and think to ourselves "oh wow, lay off with the lead foot." However, more often than it should, we realize it too late.

In recent years the frequency of speed-related deaths has increased, and most of these, unfortunately, involve teens and those in their

Keep calm and pass the Regents

Regents week is normally the most stressful week of the year and it is arriving quicker than anyone really expected. Not only are regents exams nerve-wracking for students, but they are nerve-wracking for the teachers as well. After all, they have spent a whole school year preparing you for these tests, you doing well is just as important. As you take these tests, there are a few things you must try to remember.

You are smart! If you weren't smart, you wouldn't be sitting in front of these tests to begin with. You have four quarters of knowledge in your brain, you just have to focus hard and use every ounce of the information that you can. Everyone has the ability to pass a test as long as they put effort into it.

Make sure you have a decent breakfast or lunch before your regents exams. Brain food really does help you focus, and no one wants to experience a growling stomach or stomach pains during a test where you cannot even get up. You also don't want to distract people with your stomach noises, it is pretty quiet when everyone is in the zone.

Sleep is also essential when going into a test. Regents exams last for three hours, and if you can't stay awake during the test, how well can you possibly do? You remember information much better when you get an appropriate amount of sleep, eight hours.

Last but not least, do not forget that these tests do not define who you are! You can be nervous, but just keep a positive attitude as you take your tests, and you'll be okay. Study hard and pass your exams, summer will be here before you know it. *By Maggie Williams*

early twenties. Speed limits are set for a reason and they are meant to be obeyed for your own travel safety and those around you.

As an individual who has personally been at fault and received a speeding ticket of her own, I can honestly say it was eye-opening as to how often it can be easy to speed.

All it would take for an accident to be prevented is to keep an eye on the speedometer. Who knows, you could have saved someone's life by not hitting the gas through that yellow light.

There is a required meeting for students taking **ESF Global Environment** in the fall today, June 4 in room 202 after school.

What's happening at G. Ray Bodley High School?

Class of 2016 take note! Schedules are currently available for yearbook portraits, which will take place today and Friday, June 4 and 5 in the auditorium. See your guided study hall teacher for your schedule.

There is a required meeting for students taking **ESF Global Environment** in the fall today, June 4 in room 202 after school.

Physicals for working papers only will be available free of charge from June 8-11. Stop at the nurse's office this week to make an appointment.

Senior trip paperwork must be given to Mr. Lacey by Monday, June 8.

The Fulton Rotary Club is seeking **host families for exchange students** for the 2015-16 school year. To host a student from a different country contact Judy Young at 593-1888.

Sign-ups for **girls soccer** in the fall will be held after school today, June 4 in room 203. Summer soccer, team camp and preseason dates will be discussed.

There will be a 15-minute meeting for all girls interested in playing **fall tennis** in room 113 after school today, June 4.

Students interested in **varsity golf** this fall should sign up with Mr. Ascenzi in the Guidance Office.

What's for lunch?

Today: Soft turkey taco with fixings, corn, baked beans, chilled pears.

Friday: Grilled cheese sandwich with tomato soup, steamed broccoli and fresh fruit sorbet.

Spring is here!

A new season, a new look

Book now for the senior dinner dance!

Bandwidth overload slows FCSD network

It is a problem that anyone who has done enough internet surfing this week has probably encountered as they have tried to go to a website and been stopped by a "Sorry, _____ is not currently accessible due to high bandwidth usage. Please try again later." Some may have noticed their teacher telling them to lay off on the YouTube a little bit. A lot of people are wondering why this is the case. But contrary to what some students may think, it is not because students are using YouTube for incorrect reasons.

According to Ms. Stephanie Maturo, the Director of Information Technology, the real and only reason why students have to cut down on their internet usage is plain and simple; people are using too much of it and the overall district bandwidth is being con-

sumed.

The high school, all of the elementary schools, the Fulton Education Center and the junior high each have 10 Gigabytes to work with. All together the different parts of the Fulton City School District share 60 megabytes of internet.

Although each building has 10 Gigabytes, it all comes together at the high school, where the line out to the Internet drops down to 60 Megabytes. As a result, everyone has to share that same 60 megabytes to get to the Internet which equals a LOT of internet traffic. To demonstrate how large a number that really is, Ms. Maturo noted that back in 2007, the school only had two megabytes, and now it has 60. Despite having 30 times the number, all of it is being used and prob-

lems have surfaced that have stopped the flow of educational internet use.

One of the biggest problems all of this internet usage has created is interference with some essential testing. As is the case here at the high school, all of the elementary students have Star Testing going on, which started on May 18 and will not be over until June 17. Star Tests are like a regents for a five year old, but in order for them to take these tests, they have to schedule an appointment and then go and take it.

This is a difficult thing to do when the internet keeps crashing during the test. Some kids have tried to take it three or four times, which has created a lot of rescheduling and has become a major hassle. So for the next few weeks don't be surprised to see that message keep popping up about high bandwidth usage and that is why students are being told to get off YouTube by some of their teachers.

By Hope Williams

Dinner dance attendance policy noted

Seniors who plan on attending Friday's Senior Dinner Dance are reminded that they are required to be in school on Friday until at least 11:30 am, which is the end of bell 5. Any student who leaves school prior to the end of fifth bell will not be permitted to attend the dinner dance and will not receive a refund.

Friday deadline for Nature Exploration Day

Friday, June 5 is the last day to turn in the registration form for the Rice Creek Nature Exploration Day. This is an event that has been taking place since 1983 and to this day continues to attract many. It provides those who attend the chance to explore their curiosity in nature while further enhancing their knowledge of the world and how it works.

On this day there will be a large group of well-educated tour guides who will be stationed along the trails and activity centers to answer any questions any individual may have.

The event will take place July 1 at The Rice Creek Field Station, Thompson Road in Oswego. Be advised that this is directed to attract a younger audience, however, anyone interested in a scientific field upon entering college may find it beneficial to their educational journey. The registration form can be located at this website www.oswego.edu/exploringnature which allows you to be able to print it from home if traveling to Oswego to personally get one is a problem. Any additional question can be answered by calling this number 315-312-6678.

Do not let the directed audience age prevent you from going; it truly is a great opportunity to enjoy being outside and it grants the potential for you to learn a few new things that you may not have known before that should be taken advantage of. *By Chelsie Knopp*

Summer Fact of the Day:

July is known as National Ice Cream Month.

GRB Library seeks student input

Let your voice be heard. If you are a Fulton student in grades 8, 9, 10, or 11, the GRB Library is looking for your input.

*-Information not found

RND's Carson Metcalf took this amazing picture with his iPhone in Rapid City, South Dakota. This photo was featured on *The Weather Channel* with Jim Cantore on Tuesday.

RND weatherman's photo goes national

From a G. Ray Bodley graduate to the 2012 *Fultonian* Editor in Chief and our resident weather forecaster, Fulton's own Carson Metcalf is back at it and going above and beyond, accomplishing the extraordinary. Following his passion and major of Meteorology, Carson has had an interest in the weather ever since he was a young kid, but now he is slowly achieving his dreams.

Departing on May 28, Carson left for the midwest along with seven other SUNY Oswego students, with others from different colleges as well totaling 15, for what he called "Supercell storm chasing." The team of himself, other students and professors took shifts between vans with specialized equipment that is ready to go at a moment's notice. "One day we can be in Kansas, the next I could wake up rolling to one of the Dakota's," Metcalf said, "we don't wait for the storms, we go to them."

On Tuesday he gained nationwide notoriety when one of his photos was featured and analyzed by noted Meteorologist Jim Cantore on *The Weather Channel*.

This is an elective he chose through the college to take as a part of his Meteorology major at SUNY Oswego. He said this elective interested him because "it's applying skills I would use in the real world instead of writing from textbooks," to which he added, "it would be cool to see tornadoes up close."

Following his return, Carson and the team will analyze data that was collected from the storms to conduct research on how the storms form and how they function. Before his leave, Carson noted that, "the scary part of being next to a tornado isn't physically being there, it was the release forms I had to sign in the first place."

By Kyle Buck

What will you remember the most about this year?

"Probably soccer."

Victoria Izyk

"Basketball and football."

Cody Green

"Track and field."

Amber Destevens

"Soccer season."
