FENTANYL:  
WHAT IS IT

Fentanyl can be added to heroin, cocaine and pills, without you even knowing it. Even a few specs of fentanyl can be deadly. Anyone is at risk who uses illegal drugs.

A **fatal dose** is equal to just **2 grains** of sand.

#### **SAFETY TIPS**

- **Talk to your loved ones** about the dangers of illegal drugs.
- **Avoid mixing drugs**, including pills, alcohol and others.
- **Carry Naloxone** to reverse an overdose and save a life.
- **If you see an overdose**, call 911.
